Dear Potential Funder:

On behalf of the Grants Managers Network (GMN), I am requesting your support of Project Streamline. Attached is a full proposal for the project. As a grantmaker with a strong interest in the streamlining movement, we hope that you will join your colleagues in making this project a reality.

We believe that Project Streamline has the potential to significantly improve both foundation and nonprofit operations, allowing both grantors and grantees to focus more time and resources on value-added activities that help them achieve their missions. For your grantees, this would mean a greater percentage of time and resources dedicated to meeting their missions and less on fundraising and grant compliance activities.

Thank you for your consideration. Please contact Michelle Greanias at (202)329-7670 or mgreanias@gmnetwork.org if you need more information to consider this request.

Sincerely,

Richard J. Toth
Project Streamline Chair
